12+ YEARS TURNING OPERATIONAL COMPLEXITY INTO DECISIONS PEOPLE CAN TRUST

Builds durable reporting systems, governed semantic models, automated data workflows, executive dashboards, and decision-ready analytics across manufacturing, supply chain, finance, customer operations, field service, workforce, and enterprise platforms.

Technical range

POWER BI & MODELING

Power BI Desktop · PBIP/PBIR · TMDL · star and snowflake models · calculation groups · RLS/OLS

DATA ENGINEERING

Power Query M · Microsoft Fabric · SQL/T-SQL · Python · Snowflake · AWS · ETL · query folding

PLATFORM RANGE

Tableau · Excel automation · Direct Lake · incremental refresh · data quality · technical documentation

DAX & ANALYTICS

Filter context · weighted measures · time intelligence · scenario logic · virtual tables · performance tuning

PRODUCT & GOVERNANCE

Executive storytelling · UI systems · accessibility · lineage · privacy · deployment controls · enablement

LEADERSHIP

Stakeholder discovery · metric governance · roadmap ownership · training · cross-functional delivery

Selected experience

06/2025–PRESENT

GLOBAL
IMMIGRATION &
LEGAL OPERATIONS

Senior Business Data Analyst

Owns decision-ready analytics across complex operational workflows, aligns metric definitions with stakeholders, and improves executive visibility through governed reporting and automated data preparation.

10/2025–12/2025

FINANCIAL PLANNING
& MICROSOFT FABRIC

Power BI Specialist

Designed financial-planning models and polished reporting experiences using Power BI, DAX, Power Query, and Fabric-oriented architecture; strengthened refresh reliability and decision traceability.

07/2024–12/2025

LEARNING
TECHNOLOGY &
FABRIC ENABLEMENT

Data Science Consultant

Translated analytical and platform concepts into reusable models, technical guidance, and enablement materials spanning Fabric, semantic modeling, automation, and trustworthy measurement.

BRETT GALLAHER / EXPERIENCE & PORTFOLIO PROOF

08/2023–05/2025

ENERGY &
ENTERPRISE
PROJECT
MANAGEMENT

Power BI Developer

Modernized portfolio and project reporting, improved measure performance, connected financial forecasts with delivery evidence, and produced executive views for capital and resource decisions.

02/2022–04/2023

INDUSTRIAL
MANUFACTURING &
SUPPLY CHAIN

Business Intelligence Data Analyst

Built operations and supply-chain analytics that reconciled production, quality, inventory, procurement, and supplier evidence; replaced manual reporting with reusable Power BI products.

10/2020–09/2022

CUSTOMER
OPERATIONS &
CONTACT CENTERS

BI Developer

Connected service demand, staffing, adherence, quality, customer outcomes, and cost; automated recurring analysis and helped leaders act at the queue and interval level.

12/2011–10/2020

WARRANTY & FIELD
SERVICE OPERATIONS

Senior Data Specialist

Developed deep domain expertise across claims, dispatch, repair, payments, complaints, vendors, and retention while advancing from operational data work into scalable BI delivery.

Portfolio proof — paired Desktop + web products

FACTORY INTELLIGENCE SYSTEM

High-volume manufacturing star · explicit OEE and loss DAX · Power Query quality controls · interactive web operations console

WORKFORCE MOBILITY STRATEGY LAB

Disconnected demand scenario · weighted readiness and retention · cost-risk analysis · editorial workforce atlas

CAPITAL PORTFOLIO SCENARIO STUDIO

Program-project snowflake · risk-adjusted NPV · funding what-if · executive capital ledger

CONTACT CENTER PULSE

Weighted service measures · dynamic metric selector · staffing diagnostics · multi-channel service signal
